postmodern theology consists in a sharp edged retrospective and reflection on the forty year history of the most important movement in contemporary religious thought that is only now passing from the scene the author dr carl raschke is generally credited with having sparked the movement even if he did not always happen to be its leading spokesperson not only has a comprehensive survey of postmodern theology in all its different phases and complexity not been published prior to the appearance of this book but it is even more remarkable for someone who both launched it and had a central role in shepherding it along to offer what may be termed a movement memoir postmodern theology surveys and summarizes the major figures and trends that have given currency to such familiar expressions as deconstruction deconstructive theology radical theology a theology god is dead and of course postmodernism itself dr raschke also contextualizes the emergence of these catchy phrases from a frothy soup of new intellectual theories and philosophical innovations which were international in scope but customized for both academic and popular religious writers mainly in britain and america from the late 1960s onward

these essays set out to consider the possible future of theology in the light of the so called postmodern condition they are necessarily deeply interdisciplinary since it is a characteristic of post enlightenment thought to disintegrate the lines of definition which separate areas of reflection in the human sciences theology we believe must be exposed to the consequences of what has happened in literature and critical theory if it is to have any future outside the protected and isolated environment of ecclesia and the communities of the faithful the authors represent a great diversity of opinion and discipline not all of us would agree with one another and certainly there is no agreement as to what constitutes postmodernity yet this very diversity forms the strength and importance of the book for there are no simple answers or straightforward definitions theology must recognize the pluralism within which it now must carry out its task and which alone defines its future the keynote of the discussion is the tragic tragedy takes us back to the greeks and to nietzsche both feature centrally in this presentation it also suggests a future a return perhaps through literature to theology and not merely an end of the story as it has been traditionally sold
